Kyle supports the FSL Public Finance's financial and swap advisory units, assisting local governments, nonprofits and colleges and universities with debt structuring, financial analysis, budget projections and risk assessment. He has experience with general obligation bonds, revenue-secured transactions, lease financings and derivative products, helping clients develop tailored financing solutions to meet their long-term capital needs.

Kyle has played a key role in analyzing debt portfolios, evaluating interest rate risks and structuring financial strategies to optimize borrowing costs. He works closely with clients to navigate complex transactions and regulatory requirements, ensuring effective financial planning and compliance.

Before joining FSL, Kyle was a commercial credit analyst at Fidelity Deposit and Discount Bank, where he assessed credit risk for commercial lending.
